Another Road to BrooklynA few of us remember when a ferry boat was
the only way to get to Brooklyn. Some of us recall
when the first Brooklyn Bridge was opened. Most
of us remember when the first subway train ran to
Brooklyn and the two cities really became one.One by one subways and bridges have in-
creased the facilities of transportation, and this
morning the trains begin to run from Wall and
William Streets, Manhattan, to Borough Hall,
Brooklyn, by way of Clark Street.It is a good time to remember that the Title
Guarantee & Trust Company was the first financial
institution to show its faith in Brooklyn by lending
freely and liberally on Brooklyn real estate. Almost
every one does this now, but we paved the way.
There was a time when it was popular in your Will
to exclude Brooklyn real estate. No one but a back
number does this to-day. Guaranteed mortgages on
Brooklyn real estate are as good as any investment
that Greater New York has to offer.The new tunnel means more people going back
and forth each day between Manhattan and Brooklyn.
Recent real estate activities have resulted in the
best title and mortgage business that we have done
in years, but we are increasing our facilities and we
are ready to take care of your business. You will
find our Company ready to render you the best of
service in titles and loans.You may leave your applications for Brooklyn
or New York titles at either our New York office, at
176 Broadway, or at our Brooklyn office, at 175
Remsen Street. We have offices in every Borough,
where we shall be glad to receive your business.**TITLE GUARANTEE & TRUST CO**

In Both Boroughs**The Brooklyn Trust Company welcomes the
opening of the Clark Street Tunnel as affording addi-
tional convenience to the patrons of its offices in both
Boroughs.Our offices in the business and financial center
of Brooklyn and in the Wall Street District, re-
spectively, are within easy reach of either of the
Subways, now linking still more closely the commer-
cial and industrial life of Brooklyn and Manhattan.If you have not yet considered the advantages
